

## Debunking The Big Bang

Spike Psarris is speaking  
at the AFSC meeting at  
Atonement Free Lutheran Church

Was our Universe created by God, as described in the Bible? Or did it form itself in a Big Bang event, billions of years ago.

Secular scientists say that the Big Bang model is correct. But a closer examination reveals that this model is riddled with serious problems. It violates important principles of physics, it has absurd implications, and it even contradicts itself. Join us at the October AFSC meeting as we discuss these problems and debunk the Big Bang model.

The speaker, [Spike Psarris](#), has a Bachelor's degree in Electrical Engineering and has done graduate work in Physics. He worked for a number of years as an engineer in the US military space program. He entered that program as an atheist and an evolutionist, and left it as a creationist and a Christian.

Today he speaks on creation/evolution, especially as it relates to astronomy. Spike has published two DVDs on the subject. His third DVD on “Our Created Universe” is in production and should be available soon. Spike’s website is [www.CreationAstronomy.com](http://www.CreationAstronomy.com)

Spike presented lectures on astronomy at various venues as well as at the annual [Seattle Creation Conference](#) in 2013.

Refreshments plus books and DVD’s at the exhibits afterwards.

The [Apologetics Forum of Snohomish County \(AFSC\)](#) was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) [Creation vs. Evolution](#), 2) [Christian Apologetics](#) and 3) [Biblical Worldview](#). [AFSC](#) provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life.
