

The Power of Biblical Paleontology

J.D. Mitchell is speaking
at the CAPS meeting at
Expedition Christian Church
In Mountlake Terrace, WA
Thursday, December 11th at 7:00 PM

J.D. Mitchell will speak on The Power of Biblical Paleontology at this CAPS meeting. He will argue that Christian laypersons can have the ability to understand the superiority of Creation Science over Secular Naturalism by obtaining a foundational knowledge of paleontology based on biblical presuppositions. The technical basis for the talk is largely based on his findings at the John Day Fossil Beds in Central Oregon. He has spent a number of years since 2006 researching about the area and its fossils. During that time he developed a hypothesis attempting to explain the paleontological finds of the area based upon biblical presuppositions and according to the worldwide flood described in the Bible.

In this PowerPoint presentation J.D. Mitchell discusses several of his findings concerning the John Day Fossil Beds along with a list he has developed of "Eighteen Paleontology Facts." He compares the presuppositions of secular paleontology with those of biblical paleontology and looks at what impact these premises had on the early fossil discoveries of the John Day area. Mitchell demonstrates the importance of beginning with the biblical presuppositions in order to stay true to God, our Creator.

J.D. Mitchell is a registered professional engineer in Oregon and Washington and has a Bachelor of Science in Mechanical Engineering from the University of Washington. He has also completed his Master of Biblical Studies in Biblical Creation Apologetics from Master's Graduate School of Divinity. J.D. is Executive Director of the Institute for Creation Science of Oregon, and speaks and writes regarding the creation versus evolution controversy as a part of his creation science ministry (Creation Engineering Concepts).

J.D. Mitchell has written a number of Creation Science books, including The Creation Dialogues.

DVD and three books on Creation Science published by J.D. Mitchell:
