Many will dismiss what the Bible has to say simply because they believe the Bible can't be trusted in the area of historical accuracy. Egyptian Chronology is the lynch pin for this. During this presentation we will include a discussion of the latest in archaeology as it relates to Egyptian Chronology.

At issue is the debate that rages over the accuracy of the Egyptian Chronology, long held to be the "gold standard" in historical chronology. This presentation will give you great encouragement in your efforts to believe the Scriptures and help equip you to trust the historical accuracy of the Bible.

As a geologist, Nurre holds to the biblical framework of Genesis (Creation, Flood) for interpreting the landforms of the earth. This has led him to study Egyptian chronology to unravel the apparent contradiction between biblical and Egyptian chronology pointed out by secular historians.

Patrick Nurre was trained in the secular view of geology. Over the past 40 years he has been actively involved in the Creation/Evolution issue in the field of geology. He has spoken to hundreds of college students, and is a popular speaker at many conventions and homeschool conferences. In 2005, Patrick created Northwest Treasures to provide opportunities to study geology from a Biblical perspective. In the fall of 2012, he opened the Geology Learning Center, a geology museum/educational center, located in Mountlake Terrace. Patrick leads field trips each year to many geological sites including his annual field trip to Yellowstone Park in August.

His web site is at www.northwestrockandfossil.com (Northwest Treasures).

Refreshments plus books and DVD's at the exhibits afterwards.

The Apologetics Forum of Snohomish County (AFSC) was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) Creation vs. Evolution, 2) Christian Apologetics and 3) Biblical Worldview. AFSC provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life.
