

Answering Skeptics - Bill Nye

**Carl Kerby is speaking
at the AFSC meeting at
Atonement Free Lutheran Church

Bill Nye “The Science Guy” has become popular again recently. He did a “big talk” video where he went after those that don’t believe in evolution in a major way. He also held a very public debate with Ken Ham, President of Answers in Genesis. It was watched by millions last year.

In this talk Carl breaks down that video and addresses his claims made in the video as well as in the debate. In addition questions that he raised are addressed using secular sources.

What does he mean by “evolution”?

Are “tiny changes” the mechanism by which a worm eventually turned into humans?

How are mutations involved in that process?

Can a “Christian” really do “science”?

What about “ancient dinosaur bones”? Don’t they show Christians are wrong?

Plus More!

Christians need to be ready to give an answer for the reason for the hope that they have within them. This talk helps give some of those answers and, hopefully, encourages the body of Christ to become more visible in the culture.

AFSC was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) Creation vs. Evolution, 2) Christian Apologetics and 3) Biblical Worldview. **AFSC** provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life. More on **AFSC** can be found at <http://ApologeticsForum.org>.
