

## No Compromise

Paul Taylor is speaking  
at the AFSC meeting at  
Atonement Free Lutheran Church  
6905 172<sup>nd</sup> St. NE, Arlington, WA  
Friday, February 20<sup>th</sup> at 7:00 PM

Today, people and churches, that identify themselves as Bible-believing evangelicals, have a number of views on Genesis, other than that of a literal six-day creation. We address such views as: 1) The Gap Theory – suggesting a time gap between Gen. 1:1 and 1:2 (or sometimes before Genesis 1:1), allowing for millions of years, while still accepting a six-day (re)creation. 2) Progressive Creation – that God created objects and creatures progressively, over the alleged 14 billion years or so since the supposed Big Bang.

ANE-Tabernacle Models – a small variety of models, associated with the [BioLogos Foundation](#), mostly suggesting that biblical writers were products of their time, and therefore unfamiliar with the scientific advances of the modern world. These models usually take a particular view on Ancient Near East philosophies and are used in conjunction with justifying a theistic evolutionary position.

The talk affirms the biblical position, of God creating everything in six literal 24-hour days and resting on the seventh, to be the correct position.

[Paul Taylor](#) was born and grew up near Manchester in the North of England. He studied piano at Chetham's School of Music, but read Chemistry at the University of Nottingham. Paul taught Chemistry, Physics and Science in government (“public”) schools in England and Wales for 18 years, eventually becoming a Head of Science, with a Masters in Science Education and Management from the University of Cardiff.

Paul was saved at the age of 15. He came across creationist literature in his late teens, and quickly became involved in speaking and writing on the subject of creation and evolution, Genesis and apologetics. Since 2005, he has been a full-time creation speaker, having worked for [Answers in Genesis](#) (UK/Europe) and [Creation Today](#). He and his wife are now the directors of the [Mount St Helens Creation Center](#). Paul is married to Geri, and they have five children between them.

Refreshments plus books and DVD's available at the resource tables afterwards.

AFSC was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) Creation vs. Evolution, 2) Christian Apologetics and 3) Biblical Worldview. AFSC provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life. More on AFSC can be found at <http://ApologeticsForum.org>.
