

A Scientist Tests The Verses of Genesis

**Dr. Ed Neeland is speaking
at the AFSC meeting at
Atonement Free Lutheran Church
6905 172nd St. NE, Arlington
Friday, May 29th at 7:00 PM**

What happens when a chemistry professor investigates the claims in the first book of the Bible? You might think that this is a disaster waiting to happen. Not at all. We believe by faith that the Bible is God's word and is an accurate description of our origins. This talk examines key Bible verses in Genesis and sees that the evidence supports them.

The world sees science and Christianity as fact and faith. But there are many facts showing that God's words in Genesis make sense. Join [Dr. Ed Neeland](#) as he shows how the scientific evidence supports the Genesis account again and again. This talk will deepen your understanding and you will see the book of Genesis in a new way. It is Ed's hope that this talk will strengthen your faith. When people object that the Bible is a storybook of fables ... please use a few examples from this talk to open their minds. God declares "Come now, and let us reason together." (**Isaiah 1:18**). If God is willing to reason with people then we should reason with people. It's easy when you discover that the facts are on our side.

Ed became a PhD scientist because the beauty of nature captured him early and he wanted answers to his questions. Ed became a follower of Jesus Christ at the age of 18 and soon learned that his biology professors and the Bible were at odds. This started an eye-opening period of comparing the evidence against both origin accounts. It became very apparent that the Biblical story of creation was far more consistent with the evidence than evolution. Today, Ed is a university chemistry professor teaching students and specializing in the synthesis of new antibiotic/anti-inflammatory medicines. Ed continues to educate people in [creation-evolution talks](#) as well as being an archer, gold prospector and motorcyclist.

Refreshments plus books and DVD's available at the resource tables afterwards.

AFSC was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) Creation vs. Evolution, 2) Christian Apologetics and 3) Biblical Worldview. **AFSC** provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life. More on **AFSC** can be found at <http://ApologeticsForum.org>.
