

Science and Humanism: The Consequences of Bad Ideas

**Bruce Barton speaking
at the [AFSC](#) meeting at
Atonement Free Lutheran Church
6905 172nd St. NE, Arlington, WA
Friday August 26th at 7:00 PM**

Description: Evolutionists charge that creationism has hindered science, and that “no real scientist believes in creation.” Yet history shows just the opposite: Many of the greatest scientific discoveries have been by scientists who believed in God as Creator. On the other hand, science based upon evolutionary assumptions has resulted in much wasted research money, and ideas that are now in total disrepute. Additionally, evolutionary thinking leaves a trail of hopelessness and despair, and ideas that have been devastating to humanity, even resulting in the deaths of millions of people.

Endeavoring to “think God’s thoughts after Him,” as did astronomer Johann Kepler, not only results in more reliable scientific methods and results, but provides us with a positive outlook on life and hope for the future.

In this presentation we show some of the

consequences of ideas based upon evolutionary assumptions, and contrast them with the great advances in science made by Bible-believing scientists.

The speaker: [Bruce Barton](#) has degrees in meteorology and theology, with studies in engineering and graduate work in atmospheric sciences. Mr. Barton was an instrumentation engineer in R&D for Weyerhaeuser Company until retirement. He has a broad background as a teacher and speaker to groups of all ages in a wide range of subjects including science and technology, aviation, and Bible topics, particularly apologetics. Bruce has been speaking on the Creation/Evolution controversy for over ten years, especially to homeschool groups. He continues to give seminars and lead field trips for them. Bruce also serves on the Board of Directors for [CAPS](#).

Bruce’s web site is at monarch.nwcreation.net.

The **Apologetics Forum of Snohomish County (AFSC)** was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) Creation vs. Evolution, 2) Christian Apologetics and 3) Biblical Worldview. **AFSC** provides a local Forum in the North Snohomish County area for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life. More on **AFSC** at ApologeticsForum.org.
