

Secrets of the Rocks
Patrick Nurre, Founder of
Northwest Treasures, at
Atonement Free Lutheran Church
6905 172nd St NE, Arlington, WA
Friday November 20 at 7:00 PM

Description: If you have never been a rockhound, you are missing out on more than collecting pretty rocks. Rocks hold some very interesting and wonderful secrets in God's creation. During his presentation, Patrick will take us on a journey to explore these secrets. You will discover things that even the most experienced geologist has missed. Your faith will be strengthened and you will come away with some "rock solid" apologetics you can share with your friends.

Speaker: **Patrick Nurre** was trained in the secular view of geology. Over the past 40 years he has been actively involved in the Creation/Evolution issue in the field of geology. He has spoken to hundreds of college students, and is a popular speaker at many conventions and home school conferences. In 2005, Patrick created **Northwest Treasures** to provide opportunities to study geology from a Biblical perspective. In the fall of 2012, he opened the **Geology Learning Center**, a geology museum/educational center located in Lynnwood, WA. Patrick leads field trips each year to many geological sites including his annual field trip to Yellowstone Park in August.

Refreshments plus books, DVDs, and pamphlets at the resource tables afterwards.

The **Apologetics Forum of Snohomish County (AFSC)** helps equip Christians in the defense of **The Faith** in the postmodern world in three related areas: 1) **Creation vs. Evolution**, 2) **Christian Apologetics**, and 3) **Biblical Worldview**. **AFSC** provides a local Forum for lectures and DVD programs by knowledgeable presenters on these topics. More on **AFSC** at **ApologeticsForum.org**.
