Frank's Speaker Bio

As a young person Frank always struggled with "authority," and wanted to know WHY he needed to do what he was told to do, especially when it came to organized religion. That changed when someone at a Bible study gave him a copy of Josh McDowell's book, "Evidence That Demands A Verdict." The fact that someone was able to systematically and logically validate the truth claims of the Bible is one of the things that led him to place his faith in Jesus Christ.

Frank's goal is to be able to reach the skeptics like his previous self by being able to share with them that God is a God of design, order and logic. He enjoys having conversations with people about things that are true. Sharing God's truths in a proper and understandable way is one of his greatest joys.

When Frank is not fulfilling his duties as a speaker, he and his wife love to travel. He also loves shooting sports and especially enjoys bow hunting. His love for archery even led he and his wife to start a ministry to share the gospel along with the skills of archery to the youth of Hawaii entitled, Centershot Hawaii. Frank has a Science Education degree from the University of Hawaii, but his greatest credential is experience and time spent in the ministry.
